The Contractor will conform with the requirements of DoD 5220.22-M, Department of Defense National Industrial Security Program, Operating Manual (NISPOM) available from www.dss.mil. When visiting COMSPAWARSCOM at either Old Town Campus (OTC) or Point Loma Campus (PLC) the Contractor will comply with the security directives used regarding the protection of classified and sensitive but unclassified (SBU) information, SECNAVINST 5510.36 (series) and SECNAVINST 5510.30 (series) both of which are available from <http://neds.nebt.daps.mil/Directives/table52.html>. On-site contractor personnel will promptly correct any deficient security conditions identified by a SPAWAR Systems Center Security representative.

b. Storage.

1. Classified material may be stored in containers authorized by SPAWAR Systems Center's PLC Physical Security Group, Code D0352, or OTC Code D0351, for the storage of that level of classified material. Containers to be located at our OTC will request Code D0351's written permission. Areas located within cleared contractor facilities at COMSPAWARSCOM will be approved by DSS.

2. The use of Open Storage areas must be pre-approved in writing by SPAWAR Systems Center, Code D0352, for the open storage, or processing, of classified material prior to use of that area for open storage. Specific supplemental security controls for open storage areas, when required, will be provided by SPAWAR Systems Center, Code D0352.

INFORMATION TECHNOLOGY (IT) SYSTEMS PERSONNEL SECURITY PROGRAM REQUIREMENTS

N68939-97-D-0041 NS40

The U.S. Government conducts trustworthiness investigations of personnel who require access to only unclassified information and who perform IT duties. Requirements for these investigations are outlined in paragraphs 3-614, 3-710 and Appendix K of DoD 5200.2-R, available at <http://www.ntis.gov/product/dod-directives.htm>. Personnel occupying an IT Position shall be designated as filling one of the IT Position Categories below. The contractor shall include all of these requirements in any subcontracts involving IT support.

According to DoDD 5200.28 (Security Requirements for Automated Information Systems), paragraph 4.10 which states "Access by foreign nationals to a US government-owned or US Government-managed AIS may be authorized only by the DOD Component Head, and shall be consistent with the DOD, Department of State, and the Director of Central Intelligence policies." SECNAV approval is required for all non-U.S. citizens. All requests requiring SECNAV approval shall be submitted to D0351.

The Contracting Officer's Representative (COR) or Technical Representative (TR) shall determine if they or the contractor shall assign the IT Position category to contractor personnel and inform the contractor of their determination. If it is decided the contractor shall make the assignment, the COR or TR must concur with the designation.

IT-I Position (High Risk) – Positions in which the incumbent is responsible for the planning, direction, and implementation of a computer security program; has a major responsibility for direction, planning, and design of a computer system, including the hardware and software; or can access a system during the operation or maintenance in such a way, and with relatively high risk for causing grave damage or realizing significant personal gain. Personnel whose duties meet the criteria for IT-I Position designation require a favorably adjudicated Single Scope Background Investigation (SSBI) or SSBI Periodic Reinvestigation (SSBI-PR). The SSBI or SSBI-PR shall be updated every 5 years.

IT-II Position (Moderate Risk) - Positions in which the incumbent is responsible for the direction, planning, design, operation or maintenance of a computer system, and whose work is technically reviewed by a higher authority at the IT-II Position level to insure the integrity of the system. Personnel whose duties meet the criteria for an IT-II Position require a favorably adjudicated National Agency Check (NAC).

IT-III Position (Low Risk) - All other positions involving IT activities. Incumbent in this position has non-privileged access to one or more DoD information systems/application or database to which they are authorized access. Personnel whose duties meet the criteria for an IT-III Position designation require a favorably adjudicated NAC.

If an employee has a personnel security investigation at the appropriate level without a break in service for more than 24 months, with favorable adjudication, and in the case of IT- I Position is less than 5 years old, you do **not** need to submit an additional investigation for the trustworthiness determination. If required, the contractor will ensure personnel designated IT-I, II, or III complete the Standard Form (SF) 85P. The company shall review the SF 85P for completeness and use Appendix G, SECNAVINST 5510.30A to determine if any adverse information is present. If adverse information is present the company may submit a "Request for Waiver", along with the SF 85P, to allow their employee to work on this contract. The "Request for Waiver" must contain the name of the employee, their SSN, justification, contract number, name and telephone number of the COR, and IT Position Category assigned. The reviewer shall submit the SF85P, and a "Request for Waiver" if applicable, to SPAWARSYSCEN San Diego, Code D0351, 53560 Hull Street, San Diego, CA 92152-5001. Only hard copy SF85Ps are acceptable. An employee may not begin work on IT until the company receives written notification from D0351. For additional assistance please send email to SF85P@spawar.navy.mil.

FOR OFFICIAL USE ONLY (FOUO) INFORMATION

1. The For Official Use Only (FOUO) marking is assigned to information at the time of its creation. It isn't authorized as a substitute for a security classification marking but is used on official government information that may be withheld from the public under exemptions 2 through 9 of the Freedom of Information Act (FOIA).
2. Use of FOUO markings doesn't mean that the information can't be released to the public, only that it must be reviewed by SPAWAR Systems Center San Diego CA prior to its release to determine whether a significant and legitimate government purpose is served by withholding the information or portions of it.
3. An UNCLASSIFIED document containing FOUO information will be marked "FOR OFFICIAL USE ONLY" on the bottom face and interior pages.
4. Classified documents containing FOUO do not require any markings on the face of the document, however, the interior pages containing only FOUO information shall be marked top and bottom center with "FOR OFFICIAL USE ONLY." Mark only unclassified portions containing FOUO with "(FOUO)" immediately before the portion.
5. Any FOUO information released to you by SPAWAR Systems Center San Diego CA is required to be marked with the following statement prior to transfer:

THIS DOCUMENT CONTAINS INFORMATION EXEMPT FROM MANDATORY DISCLOSURE UNDER THE FOIA.
EXEMPTION(S) _____ APPLY.
6. Removal of the FOUO marking can only be accomplished by the originator or other competent authority. DO NOT REMOVE ANY FOUO MARKING WITHOUT WRITTEN AUTHORIZATION FROM SPAWAR SYSTEMS CENTER SAN DIEGO CA OR THE AUTHOR. When the FOUO status is terminated you will be notified.
7. You may disseminate FOUO information to your employees and subcontractors who have a need for the information in connection with this contract.
8. During working hours FOUO information shall be placed in an out-of-sight location if the work area is accessible to persons who do not have a need for the information. During nonworking hours, the information shall be stored to preclude unauthorized access. Filing such material with other unclassified records in unlocked files or desks, is adequate when internal building security is provided during nonworking hours. When such internal security control is not exercised, locked buildings or rooms will provide adequate after-hours protection or the material can be stored in locked receptacles such as file cabinets, desks or bookcases.
9. FOUO information may be sent via first-class mail or parcel post. Bulky shipments may be sent by fourth-class mail.
10. When no longer needed, FOUO information may be disposed by tearing each copy into pieces to preclude reconstructing, and placing it in a regular trash, or recycle, container or in the uncontrolled burn.
